"BLOK made me realize that we have to be aware of what is going on in the legislative world and speak up and defend our state, our communities and our banks."

Kimberly Fairbank, 2010 BLOK Class

The Bank Leaders of Kansas (BLOK) Program is a leadership development program coordinated by the Kansas Bankers Association. The BLOK program is designed to improve the leadership skills of Kansas bankers and accomplishes that goal through four primary objectives:

- To increase the individual banker's understanding and knowledge of the structure and governance of the KBA; including a complete overview of programs, services, and representation provided by the KBA.
- To increase the individual banker's understanding of the state and federal legislative process and increase their willingness to actively support and defend the Kansas banking industry.
- To increase the individual banker's understanding and awareness of the various state and federal agencies that govern the banking industry in Kansas and how those agencies interact with the KBA.
- To improve the individual banker's leadership and communication skills through professional development and leadership training sessions and to provide a clear understanding of the individual banker's role as a volunteer KBA leader.
